

August 10, 2023

Dear Tutoring Grant team members and partners:

To ensure that Tutoring Grant team members and candidates are back and able to participate in professional learning sessions, we're holding the first virtual community of practice (CoP) and synchronous learning (SL) session in literacy a bit later than originally planned. Specifically, the first CoP that was scheduled for August 15 will now be held on **August 29**, and the first SL session originally scheduled for August 29 will be held on **September 6**. Please refer to the PD schedule below for details and zoom links. All other dates remain the same.

As a reminder, in addition to these professional learning components, our partners at the Meadows Center for Preventing Educational Risk (MCPER) at the University of Texas at Austin will be reaching out to schedule individualized coaching sessions for tutoring grant team members. You may also contact Meadows team members to schedule coaching sessions for individuals or groups of faculty, staff, district-school partners, and candidates and/or other individuals serving as tutors. We strongly encourage you to take advantage of this PD component.

We're looking forward to seeing you all at the first session of the new year, which will now be held on **August 29 from 12:30-2:00 pm (EST)**. A calendar invitation will also be sent to you and anyone else on the invitation list from year one. Please respond letting us know if you'll attend and pass the invitation on to any of your team members not already included. If you have names and contact information for team members you would like us to add to the invitation list going forward, please let us know. Otherwise, we'll send all communication to grant PIs and ask that you share the information with all individuals involved in your tutoring grant activities. *All individuals* includes IHE Tutoring grant key personnel, other faculty and staff, district-school partners, and candidates/others serving as tutors.

If you have questions or need additional information about the planned professional learning, please contact Dr. David Brobeck, Research Associate, UC SDI Center, at brobecdd@ucmail.uc.edu.

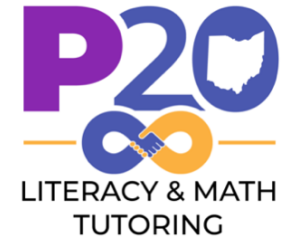

If you have questions about how to connect and/or want to provide names and contact information for your team members, please contact Elizabeth Lilly, Program Coordinator, UC SDI Center, at lillyea@ucmail.uc.edu.

We look forward to seeing you on August 29 and to working with and learning from you during the 2023-24 project year!
